

HOW TO SET UP YOUR GRIZZL-E CHARGER WITH AMPUP

Step 1 Find your router's SSID and password and enter both on the Grizzl-e app.

Step 2 Think of a unique (alphanumeric) name for your charger(s).

Example name:

mycharger002

Step 3 Add your chosen unique name from **Step 2** and add it at the end of the following URL:

centralsystem.ampup.io/ocpp/united-chargers/[\[unique_name_of_your_charger\]](#)

Using the example name used in Step 2:

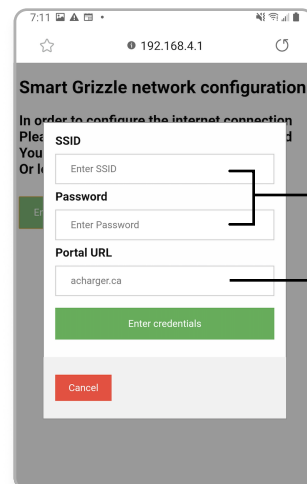

centralsystem.ampup.io/ocpp/united-chargers/[mycharger002](#)

Step 4 Enter the URL containing your unique charger name from Step 3 to the **Portal URL** section of the app and click 'Enter Credentials'.

Step 5 Email help@ampup.io with the subject 'Please Authorize Charger [Unique Name]'. In the email, please specify the following details:

1. The email address you used to sign up to AmpUp
2. Unique name of your charger

AmpUp will reply with a confirmation once your charger has been authorized.
